	“Phoenix Rising: A Newcomers Nest” Event (September 13)— Follow-up report. The event went well, and reports from attendees were positive. However, we did not have as many attending as anticipated, and so we lost approximately \$65.00 The Knowledge Nests were well received, the fighters loved fighting on the barrier, and lunch was consumed rapidly. Even though this event was not intended as a demo, we did interact with some people passing through the park. It is suggested that we have a first aid kit available for the next event.
